

# Online Piano

Online lessons don't look like traditional piano lessons.  
This overview shows what to expect!

## Virtual Assignment Sheet

A Google Site is the hub of your lessons. All of your assignments are here: links to all of the materials you need, including instructional videos, sheet music, and video responses to your playing!

## Computer-Guided Practice

Practice at home using Piano Marvel. Your teacher will design customized lessons within the software. Try to get as high a score as possible!

*A keyboard plugged into a computer or iPad is required.*

## Show Your Work!

Use Flipgrid to send videos to your teacher to get feedback. Have a question while practicing? Ask your teacher anytime! Your teacher will send suggestions and new assignments when you complete your work.
